Report of the Board of Directors

Jusqu'en mars 2009, les marchés mondiaux ont poursuivi leur forte tendance baissière persistante depuis le début de la crise financière américaine en 2007. En s'amplifiant au cours du deuxième semestre 2008, cette dernière a muté en crise financière globale ayant un effet néfaste sur l'économie mondiale.

Cependant, à partir du mois de mars, les marchés mondiaux des actions et des matières premières ont fortement rebondi. Par la suite le CAC 40, après sa chute record en 2008 d'environ 43%, a gagné en 2009 environ 22%. De même, le S&P ayant perdu à peu près 38% en 2008, a affiché une hausse de quelque 20% en 2009. Ce rebond ne peut pas seulement être qualifié de simple rattrapage technique des disjonctions et sous-évaluations des marchés de fin 2008 et début 2009.

D'un côté, les plans de relance et les abaissements des taux d'intérêt ont bien réussi à soutenir le système financier et économique mondial avec leurs effets positifs sur les ménages, les entreprises et les sociétés en particulier. D'un autre côté, un grand nombre d'entreprises et de sociétés ont ajusté de façon draconienne leur structure des coûts leur permettant de se retrouver dans une situation étant aperçue comme saine. En conséquence, les marchés ont pu profiter d'un retour de confiance et d'un recul général de l'aversion au risque.

Alors que ce rebondissement est relativement homogène d'un point de vue géographique, il existe des dissemblances au niveau des différents secteurs. Au sein des pays développés, ce sont particulièrement les secteurs bancaire et de la santé qui ont connu une forte remontée.

Néanmoins, certains facteurs ont pesé lourd sur la durabilité et la stabilité du récent rebond. Les plans de relance ont gonflé le déficit budgétaire et l'endettement public d'un grand nombre de pays. Ainsi fin 2009, la Grèce s'est vue forcée de mettre en place un plan de redressement des finances publiques pour éviter le collapsus total. D'autres pays comme l'Italie, l'Espagne ou encore le Portugal ont également affiché des dettes publiques respectivement des déficits budgétaires alarmants en fin d'année, amplifiant la méfiance envers le continent européen et sa devise.

Fin 2009, la SICAV a présenté un rendement absolu positif de quelque 4,5%. Les compartiments monétaires ont affiché un rendement absolu positif d'à peu près 2%, les compartiments actions d'environ 31% et les compartiments obligataires approximativement de 6,6%. Ces chiffres sont bien en ligne avec l'évolution générale des marchés et le profil de risque défensif du portefeuille se traduisant par une forte sous-pondération des actions. Dans le cadre de l'implémentation de la nouvelle stratégie d'investissement, le poids des actions a été considérablement augmenté au cours du deuxième semestre 2009 qui est ainsi passé de 3% à 13%.

En conséquence, bien que l'année 2009 se soit soldée avec un bilan positif, l'avenir est loin d'être rassurant et prévisible. Les incertitudes toujours persistantes au niveau des stratégies que pourraient adopter les banques centrales pour mettre fin à leur politiques accommodantes et celles vis-à-vis de la robustesse des marchés restent élevées. En outre, se pose la question s'il y aura réellement une reprise économique fondée sur la consommation et les investissements une fois les plans de relance achevés.

En dernier lieu, les liquidités injectées par les banques centrales n'ont pas été intégralement absorbées par l'économie réelle, mais une partie non négligeable s'est orientée vers la spéculation ce qui a fait naître des craintes de création de nouvelles bulles au cours de l'année 2010.

Face à ces inquiétudes, le conseil d'administration appuyé par son comité d'investissement veillera à mettre en œuvre une surveillance accrue en se dotant d'une réactivité appropriée dans la continuation de la mise en place de la nouvelle stratégie d'investissement.

Report on the financial statements

We have audited the accompanying financial statements of Fonds de Compensation de la Sécurité Sociale, SICAV – FIS (the "SICAV") and of each of its sub-funds, which comprise the statement of net assets and the schedule of investments and other net assets as of 31 December 2009 and the statement of operations and changes in net assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Board of Directors of the SICAV responsibility for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Responsibility of the "réviseur d'entreprises"

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted by the "Institut des Réviseurs d'Entreprises". Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgement of the "réviseur d'entreprises", including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the "réviseur d'entreprises" considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of Fonds de Compensation de la Sécurité Sociale, SICAV – FIS and of each of its sub-funds as of 31 December 2009, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Other matter

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

c) Investments Securities

Listed securities and securities dealt in on another regulated market are valued on the basis of their last available market price.

Securities which are neither listed on any stock exchange nor dealt in on another regulated market are valued at their last available market price; if there is no such market price, they are valued in good faith on the basis of their reasonably foreseeable sale prices.

The value of any cash at hand or on deposit, bills and accounts receivable, prepaid expenses, dividends and interests declared or due but not yet collected will be deemed to be the full value thereof, unless it is unlikely that such values are received in full, in which case the value thereof will be determined by deducting such amount to reflect the true value thereof.

Money market instruments which are neither listed on any stock exchange nor dealt in on another regulated and maturing within one year from the date of purchase are valued at amortised cost, which approximates market value.

Shares or units of underlying UCITS are valued on the basis of their last available NAV per share or unit.

Any difference arising between the cost of securities held at the balance sheet date and their market value at that date is recognised in the Statement of Net Assets under the heading "Unrealised gains/(losses)".

Any change in the difference arising between the cost of securities held at the year-end and their market value at that date is recognised in the Statement of Operations and Changes in Net Assets under the heading "Net change in unrealised gain/(loss) on securities". Security transactions are accounted for on the date the securities are purchased or sold. Purchases of securities are recorded at cost including brokerage commissions.

Certain Sub-Funds currently own collateralised financial instruments (ABS, MBS, CDO). These investments are valued in accordance with the valuation policies disclosed above.

As of 31 December 2009, the Sub-Fund's exposure to ABS/MBS/CDO instruments is the following (in terms of NAV):

- FDC SICAV Obligations Monde - Actif 1: 11.89%
- FDC SICAV Obligations Monde - Actif 2: 11.07%
- FDC SICAV Monétaire EUR - Actif 3: 6.80%

d) Interest Income

Interest income is recognised on an accrual basis, net of any unrecoverable withholding tax.

Fonds de Compensation de la Sécurité Sociale, SICAV-FIS

Notes to the Financial Statements as of 31 December 2009 (continued)

2. Significant Accounting Policies (continued)

e) Dividend Income

Dividends are accounted for on an ex-dividend basis net of any unrecoverable withholding tax.

f) Realised Gains and Losses

Realised gains and losses comprise the profit or loss arising on the disposal of securities during the year and differences arising on the revaluation of other assets and liabilities denominated in foreign currency.

Realised gains or losses are determined on the basis of the weighted average cost of the securities sold.

g) Derivatives

Forward foreign exchange contracts

Outstanding forward foreign exchange contracts are valued at the closing date by reference to the forward exchange rate applicable to the outstanding life of the contract.

The unrealised appreciation or depreciation on open forward foreign exchange contracts is calculated as the difference between the contract rate and the rate to close out the contract on any valuation day.

The unrealised appreciation or depreciation on such contracts is disclosed in the Statement of Net Assets under the heading "Net unrealised gain on forward foreign exchange contracts" or "Net unrealised loss on forward foreign exchange contracts".

The realised gain/(loss) on forward foreign exchange contracts is disclosed in the Statement of Operations and Changes in Net Assets under the heading "Net realised gain/(loss) on forward foreign exchange contracts".

Futures contracts

Outstanding futures contracts are valued at the closing date at the last available market price of the instruments.

The unrealised appreciation or depreciation on futures contracts is included in the Statement of Net Assets under the heading "Net unrealised gain on futures contracts" or "Net unrealised loss on futures contracts". All margins are included in "Futures margins".

The realised gain/(loss) on futures contracts is disclosed in the Statement of Operations and Changes in Net Assets under the heading "Net realised gain/(loss) on futures contracts".

h) Combined Figures

The combined Statement of Net Assets and the combined Statement of Operations and Changes in Net Assets are expressed in EUR and are presented for information purposes only.

i) Mortgage Related Securities – To Be Announced Securities (TBAs)

TBA positions refer to the common trading practice in the mortgage-backed securities market in which a security is to be bought from a mortgage pool (Ginnie Mae, Fannie Mae or Freddie Mac) for a fixed price at a future date. At the time of purchase the exact security is not known, but the main characteristics of it are specified. Although the price has been established at the time of purchase, the principal value has not been finalised.

Although a Sub-Fund will generally enter into TBA purchase commitments with the intention of acquiring securities, a Sub-Fund may also dispose of a commitment prior to settlement if it is deemed appropriate to do so. Proceeds of TBA sales are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment (deliverable on or before the sale commitment date), are held as cover for the transaction.

3. Custody Fees

The Custodian Bank charges a custody fee to each Sub-Fund based on the average net assets.

4. Management Fees

A management fee is charged and is allocated to Investment Managers. The fee is accrued daily, and is paid quarterly in arrears at the applicable average annual rates set out below calculated on the basis of the average daily net assets attributable to each class of each Sub-Fund during the relevant month.

Fonds de Compensation de la Sécurité Sociale, SICAV-FIS

Notes to the Financial Statements as of 31 December 2009 (continued)

5. Taxation

The Company is not liable to any tax on income or capital gains and is exempt from the *taxe d'abonnement* as provided by the article 267, paragraph 1 of the *Code de la Sécurité Sociale* in Luxembourg.

6. Securities Lending

Each Sub-Fund may enter into securities lending transactions through a standardised lending system organised by a recognized securities clearing institution or by a highly rated financial institution specialising in this type of transaction. When entering into lending transactions, the Sub-Fund receives a collateral of a value which, at the conclusion of the contract, is at least equal to the aggregate market value of the securities lent given in the form of liquid assets or in the form of securities issued or guaranteed by an OECD Country or by their local authorities or by supranational institutions and undertakings with EU, regional or world-wide scope and blocked in favour of the Sub-Fund until expiry of the securities lending transaction. Securities lending transactions do not exceed 50% of the aggregate market value of the securities in the Sub-Fund.

This limit does not apply where the Sub-Fund has the right at any time to terminate the contract and obtain restitution of the securities lent. Securities lending transactions do not exceed a period of 30 days. The Sub-Fund does not lend securities which serve as underlying instruments linked to derivative financial instruments or which have been accepted within the framework of reverse repos. Securities, used to provide cover in respect of derivatives on an exchange rate or currency are not regarded as being linked to the said derivative.

As of 31 December 2009, there were no securities lent.
